JET PAC

The 'Acme Interstellar Transport Company' is delivering spaceship kits to various planets in the solar system throughout the Galaxy; and as chief test pilot, all you have to do is assemble the Rockets, and thrust on to your next destination.

As you don't often get the chance of a free trip across the Galaxy, this is a great opportunity to get rich! Stop off on several planets on your journey, collect the odd sack of precious gems, elements or gold, and take them back with you.

Sounds simple doesn't it!

But before you make yourself the richest person in the whole Universe, remember to refuel your Spaceship – with 6 fuel pods – every time you land on a planet. Any other goodies you collect are yours to keep. Upon landing, you will find yourself equipped with the very latest

Hydrovac Jet Pac, which can automatically air lift almost any rocket stage, fuel pod or valuables that you care to land upon, and release them over the rocket ship base. Don't forget your mega-powerful, Quad Photon Laser Phasers can blast any nasty, mean aliens who might object to your visit.

JET PAC LOADING INSTRUCTIONS

1. Connect the EAR socket on your Spectrum to the EAR socket on your recorder and ensure the MIC lead is disconnected.
2. Place the cassette tape in the recorder with the labelled side uppermost and rewind to the beginning.
3. Type either **LOAD "JET PAC"** or **LOAD ""** and then press the **ENTER** key.
NOTE: Do not leave a space between the quotation marks.
LOAD is obtained by pressing the **J** key. The **"** are obtained by pressing the **SYMBOL SHIFT** and the **P** keys together.
4. Press **PLAY** on the cassette recorder.

5. **JET PAC** will now load automatically and a message will appear on the screen after several seconds. If loading is unsuccessful, rewind the cassette, adjust the **VOLUME** control on the recorder and try again.
NOTE: Full loading instructions can be found in your Spectrum manual.

6. **PLAY THE GAME**
For better sound effects you can increase the volume by connecting the MIC socket on your Spectrum to the MIC socket on your recorder.
Disconnect the EAR lead, remove the cassette tape from the recorder and press the **PLAY** button, the sound may be amplified through the loudspeaker of the recorder.
